MARCIE MOREY

www.marciemorey.com

Marcie specializes in helping gaited horses and owners develop and improve gait without the typical, conventional aids. Marcie focuses on principles to properly develop a horse's frame and natural way of going and headset.

"I went to Marcie's clinic last October. I left there a total Marcie fan. My 3 year old Prize went from being high headed, unpredictable, nervous and short-strided behind, to being happy, relaxed and over-striding in a D-ring snaffle in only 3 days! This clinic would be an excellent use of your time and money"- Kristin

Marcie will customize your time with her at the clinic based on your individual needs such as:

- * Gait development for gaited horses
- * Solving Problems
- * Trail Riding development for the anxious, competitive or spooky horse.
- * Improve gait by squaring up your pacey horse or lateralize your trotty one!

Take advantage of this unique opportunity to develop your Natural Horsemanship skills with Marcie!
